

Series 1211

## Flanged Chamber

# External Mount. Pressure to 450 psig (31 bar) and Temperature to 500°F (260°C). Minimum Specific Gravity 0.40. Hermetically Sealed Switches

Low minimum specific gravity of 0.40 and rugged flanged chamber for inspection purposes helps insure superior long term performance. Control can be used at maximum process pressure of 450 psig (31 bar) at 100°F (38°C), and 300 psig (21 bar) at 500°F (260°C). Standard 1" NPT connections are provided for mounting. 1" socket weld hubs or 1" flanges are available as options. Hermetically sealed snap switch or mercury switches are provided in a variety of circuit configurations such as (SPST) (SPDT) or (DPDT). High or low DC applications can also be accommodated. General purpose, (weather proof) (explosion proof) (explosion proof - vapor proof) enclosures are provided.

#### **APPLICATIONS**

Oil refineries, chemical plants, power generating stations, pumping stations, heat transfer systems, sanitary/waste water facilities, drip legs, hydraulic systems, boilers.

#### PHYSICAL DATA

**C1-40:** Minimum specific gravity 0.40. Process pressure 450 psig (31 bar) at 100°F (38°C), 300 psig (21 bar) at 500°F (260°C).

Switch Type: Snap action or mercury: See Charts A and B.

Electrical Rating: See Charts A and B.

**Wiring Connections:** G, WT or E enclosure, terminal block. EV enclosure, 18" (460 mm) leads.

**Process Connections:** 1" NPT or flanges. See Model Chart. (1" socket weld-hubs optional).

**Enclosures:** G, painted steel and aluminum. WT, painted steel, aluminum and neoprene. E, aluminum. EV, aluminum, neoprene.

**Wetted Parts:** C1 construction. Chamber, carbon steel. Trim 303SS, 304SS, and 430SS (316SS and 430SS optional).

Weight: 1211, 34 lbs (15.5 kg); 1213, 44 lbs (20 kg); 1214, 47 lbs (21.4 kg)

#### **Suggested Specifications**

Liquid level control shall be Mercoid 1211 (1213) (1214) Series with flanged carbon steel chamber. Process connections shall be 1"NPT (socket weld hub) (flanged). Unit shall be suitable for operation at 450 psi (31 bar) and 100°F (38°C), 300 psi (21 bar) and 500°F (260°C) with a minimum specific gravity of 0.40. Switch mechanism shall be gravity return and shall be activated by a stainless steel float. Circuit shall be (hermetically sealed) snap action (mercury) switch, (SPST) (SPDT) (DPDT). Enclosure shall be general purpose (weather proof) (explosion proof) (explosion proof).
